Tough, Maintenance-Free HDPE and Polypropylene Sheet Products

Solid polymer sheet for cabinetry and furniture that withstands any environment beautifully

- SIMONA® HDPE Boat Board®
- SIMONA® HDPE Cabinet Grade
- SIMONA® Polypropylene Copolymer
- SIMONA® Polypropylene Homopolymer

Outperforms wood and wood-composite products

- Withstands hot, cold, wet and dry conditions
- Will not splinter, rot or delaminate
- Durable, resists high impacts
- Maintenance-free, never needs painting
SIMONA® HDPE and Polypropylene Sheet

Outperforms plywood, laminated wood-core products and wood composites for exterior and interior cabinetry and furniture

**Performs beautifully under extreme conditions**
The durable, solid polymer composition and integral color of SIMONA furniture grade sheet delivers performance benefits that plywood and laminated wood-core products cannot:
- Withstands hot, cold, wet and dry conditions
- Will not splinter, rot or delaminate
- Resists stains, chemicals and harsh cleaning agents
- Resists high impacts even at temperature extremes

**Eliminates secondary edge trim**
When routed and sawn, the edges of SIMONA's solid color HDPE and polypropylene sheet are uniform in appearance with the top and bottom surfaces. This eliminates the need for edge moldings, painting and other edge treatments that add cost, can create unsanitary seams and delaminate, chip, dent or separate over time.

**Maintenance free**
- Integral color never needs painting
- Renders scratches and gouges inconspicuous
- Resists stains—easy to clean
- Resists harsh chemicals in laboratory applications

**Easy to fabricate**
- Exceptional flatness affords high productivity and yields
- Dimensionally stable even in large, flat, heavy-gauge applications
- Easy to machine using conventional woodworking equipment
- Easy to join using mechanical fasteners or specialty adhesives

With solid High Density Polyethylene and Polypropylene sheet products from SIMONA, your products can last a lifetime, indoors or out, under the most demanding conditions.
SIMONA® HDPE Boat Board®

Rigidity, durability and long-term resistance to severe weather conditions for outdoor furniture and cabinetry

SIMONA® HDPE Boat Board®'s ability to withstand sun, salt water and rigorous use, together with its wide color selection, makes it ideal for long lasting outdoor furniture and cabinetry, poolside and beach structures, as well as boat building components.

Typical applications
- Outdoor kitchen cabinetry
- Restaurant and resort furniture
- Serving carts, recycle bins
- Lifeguard, beach and marina structures
- Pool equipment and storage
- Arena and park benches
- Boatbuilding components

SIMONA® HDPE Boat Board®'s ability to withstand sun, salt water and rigorous use, together with its wide color selection, makes it ideal for long lasting outdoor furniture and cabinetry, poolside and beach structures, as well as boat building components.

SIMONA® HDPE Boat Board®

Toughness, easy maintenance and a color range that enhances any indoor environment

SIMONA’s Indoor Cabinet Grade HDPE is tough enough for industrial use, yet delivers exceptional aesthetics in a range of colors for indoor furniture and cabinetry that complements home, commercial, scientific, medical and laboratory settings.

Typical applications
- Medical and dental cabinetry
- Lockers, benches and partitions
- Hospitality cabinetry and furniture
- Indoor pool cabinetry, storage
- Recreational and bar cabinetry
- Workshop cabinetry, work surfaces, storage

SIMONA’s homopolymer polypropylene provides excellent surface hardness and structural strength superior to polypropylene copolymer and HDPE. It maintains its rigidity even at temperatures exceeding 200°F (93 °C) and resists harsh laboratory and clinical chemicals and cleaners.

Typical applications
- Medical, dental office and laboratory cabinetry
- Chemical resistant work surfaces, partitions and storage lockers
- Scientific, institutional and industrial cabinetry
- Hospitality indoor cabinetry

SIMONA® Polypropylene Homopolymer

Exceptional rigidity, surface hardness and chemical resistance for indoor cabinetry and work surfaces

SIMONA® Polypropylene Homopolymer

Exceptional rigidity, surface hardness and chemical resistance for indoor cabinetry and work surfaces

SIMONA® Polypropylene Copolymer

Extreme impact resistance even at sub-zero temperatures for outdoor and indoor applications

SIMONA® Polypropylene Copolymer

Extreme impact resistance even at sub-zero temperatures for outdoor and indoor applications

Wide range of color options for diverse applications

SIMONA offers a wide spectrum of standard and custom colors from subtle tones for cabinetry and boat building, to bold colors for scholastic and sports venues. All colors are integral and uniform throughout each sheet.

Cabinet and furniture grade colors include:
- Polar white, bright white
- Dolphin gray, glacier gray
- Seafoam, sandshade, tan
- Brown, black
- Additional standard and custom colors available in every material family
