Theming

Rapid Texture

Faux Wood

Hand-Carving

Precision Board HDU is a versatile, cost-effective and eco-friendly urethane sign material that is particularly effective for making professional-looking dimensional signs. It is a closed-cell rigid substrate that does not rot, warp or crack.

Precision Board HDU has a uniform surface with no knots and is easily cut with a CNC, laser, waterjet or carving tools. It lasts indefinitely. It can be coated or textured to resemble a variety of materials, including wood, metal, stucco, brick or stone.

Ask for Precision Board by name to assure the following:

- Fast turnaround of **DAYS**, not weeks
- Sheet sizes from 20"x60" up to 5'x10'
- Thicknesses from ½" up to 24" (available in ANY increment)
- Custom cutting & bonding available
- Free tech support available for your questions

Coastal Enterprises offers a full line of products specifically designed for use with Precision Board, including adhesives, primers and fillers. More information available on reverse side.
