

# PolyCraft® for Trailers

PolyCraft® is a brand-new product to the trailer wall-lining industry!

PolyCraft® is a Foamed Polypropylene sheet that is made of a high percentage of Recycled materials and is fully Recyclable.

Being environmentally friendly AND priced competitively are only two of the reasons why PolyCraft® is superior to plywood. Other valuable attributes include:

PolyCraft® sheets are very rigid and have high-impact resistance plus high mechanical strength for fastening

PolyCraft® sheets are lightweight which can allow higher loading capacity and improved fuel economy.

PolyCraft® sheets are great for refrigeration trailers due to its' ability to maintain integrity at low temperatures plus its' high-insulation & chemical-resistant characteristics.

These special Foamed Polypropylene sheets range from 1.5mm to 3.5mm thick and are stocked in sizes of 48"x96"/1220x2440mm & 48"x120"/1220x3048mm.

## PolyCraft® at a glance

- 100% recyclable
- Highly durable
- High dent/scratch resistance
- High chemical resistance
