

Description

Transparent, polyethylene-based mounting film with a fine-pocketed finished for the transfer of die-cut and computer-cut letters and symbols.

Adhesive

Modified polyacrylate, medium adhesive strength

Area of Use

The special composition of the polyacrylate adhesive enables unproblematic transfer of die-cut and computer cut letters and symbols. Even after more than six months of application, without any considerable increase in adhesive strength, the tape can be easily removed without leaving a residue. The high tensile strength of the tape ensures precise positioning. This film is suitable for almost all well-known types of glossy or matte finished films.

Technical Data

Thickness* (film with adhesive)	6.0-mil
Weight* (paper and adhesive)	74#
Adhesive power (FINAT TM-1, after 20 min, stainless steel)	Adhered to stainless steel: 0.45 lb/in
Tensile strength (DIN EN ISO 527)	Along: Min. 25 MPa Across: Min. 25MPa
Elongation at break (DIN EN ISO 527)	Along: Min. 500% Across: Min. 700%
Shelf life**	1 year
Application temperature	> +50°F
Available lengths	300' (100-yard)
Available widths (in inches)	14", 24", 30", 40", 48"

*average **in original packaging, at 68°F and at 50% relative humidity
