

CLASSI-CARD® An Engineered Styrenic from the Primex Family of Products

PRIMEX PLASTICS CORPORATION

A subsidiary of ICC Industries Inc.

Large enough to
handle your
requirements.

Small enough to
handle your needs.

*Highly enhanced stiffness
and tear resistance.*

CLASSI-CARD®, is a styrene sheet and roll product engineered for highly enhanced stiffness. Typically increased rigidity results in lower impact and tear resistance. Remarkably, this engineered styrene proves quite the opposite! With these added features, some have even down gauged while still maintaining their desired stiffness. **CLASSI-CARD®**'s appeal further grows as converters trim, die cut, foil, or emboss their print pieces.

For more information or samples on **CLASSI-CARD**, please call our Reedsburg facility at **608-524-6777**.
