

Signetics® is the industry standard in magnetic receptive media providing an easy to use, cost-efficient solution in magnetic receptive graphics. Signetics® features an impressive array of benefits including effortless, on-site installation, no-edge chipping, and exceptional durability. Products are easy to clean with no lamination required. Signetics® materials are engineered with an optimized face-film for superior ink adhesion and offer a neutral white point.

Signetics® Select is offered in three sizes to allow for seamless installation and increased throughput. The material has been designed with a smooth backside which eliminates scratches on prints when stacked or rolled. Signetics® Select is ideal for high-traffic environments and is compatible for use with solvent, eco-solvent and UV inks. Available in roll sizes of 54", 60" and 74" in lengths of 164'.
