CELTEC THICK GAUGE

EXPANDED PVC

GAIN A BOLDER PROFILE IN MONUMENTAL SIGNAGE

Celtec® Thick Gauge material offers the print and design communities the flexibility to go bold with creativity while enjoying the same quality and ease of production as our Celtec® Expanded PVC. Available in 32mm and 38mm thicknesses, it provides a commanding base to make images come to life while product formulation and UV performance provide consistency in aesthetics and workability.

Celtec® Thick Gauge is ideal for the most demanding applications, from monument signage and wayfinding, to routed signs, dimensional lettering, indoor and outdoor displays and other applications that require a low-maintenance, high-durability substrate.
