

Bubble-X

Durable, Long-Lasting Alternative to Fluted Sheet for Outdoor Displays

As retail environments place a greater emphasis on outdoor space usage, display materials need to hold up to increased wear and tear. From the trusted makers of Cor-X fluted sheet, Bubble-X is a more rigid, durable alternative, appropriate for extended outdoor use. The unique air-bubble core produces a sheet that is lightweight, but structurally tough enough to reduce the need for extra bracing on your outdoor displays. With a smooth, matte finish, Bubble-X prints easily, allowing your customers complete design freedom. And best of all, Bubble-X is made from 100% recyclable polypropylene, making it a sustainable and responsible choice. With virtually limitless possibilities, Bubble-X from Primex Plastics offers outstanding properties to make your project lightweight, durable, and long lasting in outdoor environments.

Applications

- POP Displays
- Signage
- Racking & Shelving
- Furniture
- Partitions

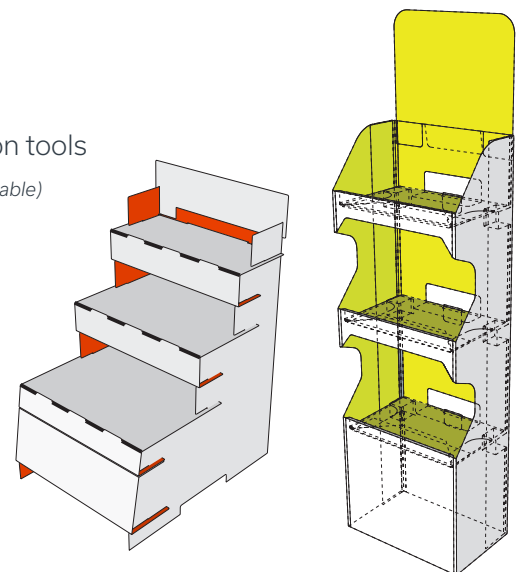

PRIME BUBBLE-X™ is a unique air-bubble co-extruded polypropylene material, manufactured with patented technology to create a rigid, lightweight sheet.

Advantages

- Rigid & Flat
- Lightweight
- Indoor & Outdoor use
- Easy to convert with common tools
- Easy to print, (*Corona-treated available*)

Finishing

- Drilling
- Routing
- Sawing
- Die Cutting
- Laser Cutting

**SUSTAINABLE
CHOICE**

100% Recyclable
Polypropylene

Available in thickness of 2.6MM, 3MM, 4MM, 5MM, 8MM, and 9.5MM
