

Marine Materials

Polymershapes carries specialty marine grade materials that are used in boat flooring, dashboards, decking, and more. These materials are lightweight, weather resistant, and impact resistant, ensuring the long life of your water craft. No matter how complex and demanding the project, turn to Polymershapes for a complete portfolio of materials for your marine applications.

Featured Materials

Polygrain™

Polygrain™, by SIMONA AMERICA Industries, is a double sided, woodgrain patterned HDPE sheet that offers extreme durability and UV resistance in the harshest marine environments. Not only is it easy to clean, Polygrain™ will not delaminate, rot or splinter to ensure a beautiful long lasting appearance.

Advantages

- Double sided woodgrain appearance
- UV and weather resistant
- Color hides marring & scratches
- Will not delaminate, rot or splinter
- Easy to clean
- Highly impact resistant
- Easy to fabricate using standard tools
- Recyclable

Applications

- Boat flooring and cabinetry
- Marina architecture & storage

Susquehanna Gray

Olyphant Oak

Featured Materials

HDPE BOATBOARD® Anti-Slip

HDPE BOATBOARD® Anti-Slip, by SIMONA AMERICA Industries, is a rigid HDPE structure that offers excellent surface friction in wet and slippery conditions. In the most extreme weather conditions, it will not delaminate, rot, or splinter, ensuring the product's long-lasting life, making it an excellent choice for the harshest marine applications.

Advantages

- High friction surface
- UV and weather resistant
- Color hides marring & scratches
- Will not delaminate, rot or splinter
- Easy to clean
- Highly impact resistant
- Easy to fabricate using standard tools
- No masking needed

Applications

- Boat platforms
- Ladder steps
- Decking

Colors & Textures

→ *Black, diamond texture; white also available*

Laser Engravable Cast Acrylic

Laser engravable cast acrylic is a weather resistant sheet, that has a second surface printed with either carbon fiber or black ink. This allows for customizable dashboards, switches, panels and more!

Advantages

- Low water absorption
- UV and weather resistant
- Lightweight
- Impact resistant
- Rigid

Applications

- Dashboards
- Switch Panels
