

CHANNEL LETTER LIGHTING

AGILIGHT
Innovative Signage Lighting

PREMIUM SIGNAGE LIGHTING SOLUTIONS

AgiLight offers an incredible range of innovative solutions to meet your channel letter lighting needs. No matter the challenge, from narrow to wide, from shallow to deep, in routed acrylic letters and face-lit or halo-lit applications, we have premium LED modules designed to fit your project.

COMMITMENT TO EXCELLENCE

After two decades, we remain committed to producing the industry's highest-quality LED signage modules. We maintain an in-house engineering team that sets us apart from our competitors. We design premium products and we can stand by the reliability of our work because our products are rigorously tested for performance and efficiency under the toughest conditions and certified by independent agencies around the world.

GLOBAL REACH

AgiLight is a truly global company, with production facilities on three continents and an international network of local sales and support representation. The biggest names in automotive, financial, retail, sports, petroleum, transportation and hospitality trust AgiLight to illuminate their brands.

ADVANCED OPTICS

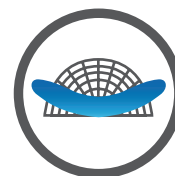

We consistently bring technically advanced yet easy-to-use products and improvements to the LED signage market. Our cutting-edge VersaLenz® advanced optics, ONEWhite® color guarantee and Capzul® waterproof technology mean our LEDs provide superior light, incredibly consistent color and brightness, and stellar protection against the elements.
