

## Customizable Duct Bank Spacer Solutions

Polymershapes provides durable, customizable duct bank spacers that simplify installation and improve jobsite efficiency. Available in **Good, Better and Best** solutions that offer strength, weatherability, chemical resistance, and reliable support for any conduit layout.

## Benefits

**Labor Savings** – Requires less assembly time than traditional chairs

**Safer Installation** – Less time needed in the trench by being assembled outside the trench.

**Reliable** – Our in-house team ensures accurate fabrication on the first attempt

**Material Savings** – Directly sourced materials always in stock

**Customizable** – Designed to fit any engineered layout

**Efficient** – Reduces errors with precise conduit spacing and configuration

**Sturdy** – Stable structure that won't fall or tip over

**Durable** – Weather, Chemical and corrosion resistant

**Easy to Label** – Easily marked for quick jobsite identification

## Duct Bank Spacers Installation Kit

- Reprocessed or 90% Virgin HDPE Spacers
- Slotted Galvanized Steel Mesh
- Frame Arms Made of 90% Virgin HDPE
- Galvanized screws

## Requires Less Time in the Trench!

**Faster**

**Safer**

Option	Material	Description	Use Case
Good	Foam PVC	Cost Effective Impact Resistance Weather Resistance	Ideal for Small Duct Banks
Better	Reprocessed HDPE	Cost Effective Impact Resistance Eco-Friendly	Medium-Large Duct Banks
Best	90% Virgin HDPE	High Strength Durable Heavy-Duty	Larger Duct Bank Applications

# We Are Committed to Shaping Your Success

Our network of stocking facilities, located throughout the United States, Canada, Mexico and Chile, enables our customers access to extensive local inventory from world-class supplier partners, and we can provide same-day delivery in many locations.

**80+ LOCAL FACILITIES  
ACROSS 4 COUNTRIES**

**17,000 SKUs**

**800 EMPLOYEES**

**37,000 CUSTOMERS  
& COUNTING**

- Expert conversion capabilities including cut-to-size sheets, film conversion and CNC routing and machining
- Innovative solutions for your material requirements and applications
- An easy, seamless experience – consistent, accurate, with integrity
